Subject: RE: NH Regional PFAS Workshop

Absolutely. I spoke to Christina Wadlington of Peter Grevatt's office last week. She indicated that they would be sharing a document outlining HQ thoughts on these engagement sessions soon (hopefully this week). I also let her know we would be in touch again this week after the summit to arrange for regular coordination during the planning process.

Thanks.

Yes, and we need to work with HQ to understand their expectations since they will want to replicate across the country.

Will do.

I have an initial meeting scheduled next week with Jim, Doug, Kate et al to get at organizational needs, float a few ideas, with the goal of having some information to bring to you/Deb in our first meeting. Jane L. also has a meeting set-up on Wednesday for Jim, Doug and I with Deb. Assume based on yesterday's email traffic Jane is trying to include you and others as schedules allow.

As to a call with the community members, if your schedule is tight next week can Jim, myself and others hold the call or shall we work around your availability?

Thanks.

Hi Meghan,

Thanks so much for the quick response. And thank you for letting us know that the vision for Monday night is an opportunity to share community stories. That is a good starting point for us for our call on Tuesday. We look forward to hearing more details from you as they become available. And we can update you on the community's thoughts next week.

Best,

Andrea

Hi Andrea,

I know Alex is tied up today, so wanted to give you a quick response.

Region 1 will definitely be reaching out to get input and help plan the upcoming meeting. We are just starting to formulate our thoughts as well. We'll be in contact soon to get some input. Jim Murphy and I will be working on this moving forward.

I do know that Alex envisions the Monday night session to provide an opportunity for the community groups to share their stories. So perhaps you can consider how that might best be accomplished.

Regards,

Meghan

Subject: Re: Great News!

Hi Alex,

We are very excited about the upcoming meeting and collaborating with you to make it a success! And again, we are very impressed that it will take place so soon after the National Summit.

Our community network is planning a group call on Tuesday to talk about the meeting so we can start to strategize our role in the meeting and how we can contribute. Any details you can share before Tuesday would be greatly appreciated so we can start our preparations. We are very happy to work with you on this meeting and make it a positive and productive meeting for all.

Very Best,

Andrea

Hi Alex,

This is great news...and much sooner than we thought! Thank you very much! I will be happy to share this among our network. Once there is a press release or flyer about the meeting, please me posted I can also share/post that, too.

Best,

Andrea

Andrea -

EPA New England will host the first regional PFAS workshop at the NHDES Seacoast office at Pease Intl Tradeport on June 25 from 5-9 and June 26 from 8-3. We are really looking forward to working with you to organize this event.

More to come.

Regards - Alex
